

HOMEWORK · LESSON 4

Weighing, Not Balancing

Evaluating an argument · Name: _____ Date: _____

A · Your own evaluation

Write a full paragraph evaluating: 'International diplomatic pressure was more important than armed struggle in ending apartheid-era policies across Southern Africa.' State your criterion explicitly and reach a real judgement.

B · Short written answer

In 2–3 sentences: why is concluding 'it is impossible to say which factor mattered most' usually a weak ending, unless carefully justified?

C · Before Lesson 5

Lesson 5 compares our two regional in-depth topics. Note one similarity you already expect between the Middle East and African independence movements.
